Storing or Changing a Scene on the Remote Control | Scene Mode

Storing a scene (for the first time):
Set the light value/scene (brightness and, if applicable, color)

Press channel button (usually "1") and A or B = Scene stored

Overwriting/Changing a scene:
Set the light value/scene

Press buttons in sequence:
1. Button "1" (channel button)
2. Button "ID"
3. Button A or B (scene button)
4. Light turns off briefly = done!
